PROFESSIONAL SUMMARY

Results-driven Junior Project Coordinator and Business Analyst with 2+ years of experience governing Agile/Scrum delivery, PMO activities, and cross-functional stakeholder management across Guidewire Insurance Suite (Policy Center, Billing Center, Claim Center), Healthcare/Medical Equipment, and Infrastructure/DevOps programs. Demonstrated strength in sprint planning, resource & workload planning, risk management, UAT coordination, defect lifecycle management, and CI/CD release readiness, with expertise in full project lifecycle management — requirement gathering, gap analysis, and business process improvement through to delivery. Built Power BI and Excel dashboards for KPI reporting and PMO governance, and leveraged AI-assisted tools to accelerate documentation and testing productivity. Agile Scrum Master certified, PMP-prepared (35 PDUs completed), and pursuing an MBA in Operations Management — targeting Associate Project Manager / Senior Project Coordinator / PMO Analyst / Business Analyst / IT Project Coordinator roles.

PROFESSIONAL EXPERIENCE

Project Co-Ordinator (Jr.) — Mahathi Infotech, Coimbatore, India [On-site] **Apr 2024 – Jul 2026**

- Governed end-to-end Agile/Scrum delivery across Guidewire Insurance Suite (Policy Center, Billing Center, Claim Center), Healthcare/Medical Equipment, and Infrastructure/DevOps programs, ensuring sprint predictability and on-time milestone delivery.
- Built Power BI and Excel dashboards tracking sprint velocity, resource utilization, Jira ticket status, and KPI metrics, providing leadership with real-time PMO governance visibility.
- Drove resource & workload planning and proactive risk management — identified Jira blockers, deployment bottlenecks, and workload imbalances — reducing sprint disruptions.
- Monitored Jenkins CI/CD pipelines and collaborated with DevOps teams to troubleshoot deployment failures, maintaining environment stability across Dev, Test, Staging, and Production.
- Coordinated UAT cycles, defect triage, and test case reviews through production closure, improving release quality and reducing post-release defects.
- Partnered with international stakeholders to elicit, analyze, and document business requirements (BRD/FRD/SOW, Impact Analysis) in Confluence, ensuring full requirement-to-delivery traceability.
- Facilitated daily Scrum ceremonies, sprint planning, sprint reviews, and stakeholder status meetings; prepared MoM and tracked action items to closure.

Business Development Executive — DevTown, Bengaluru, India [On-site] **Mar 2024 – Apr 2024**

- Generated and converted qualified sales leads via market research and outbound outreach, consistently meeting monthly targets through end-to-end CRM-driven pipeline management.
- Managed full sales cycle — prospecting, presentations, negotiations, and closures — building long-term client relationships and contributing to revenue growth.

MAJOR PROJECT HIGHLIGHTS

Digital Transformation Program — Guidewire Insurance Suite (Policy Center, Billing Center, Claim Center)

Projects: IVANS | Smooth Operators | QB | VC | IMPACTEERS | Danger Ranges | Super Packs | Autobots

- Coordinated multi-workstream P&C insurance delivery covering policy administration, quote-to-bind, premium billing, payment processing, delinquency management, FNOL processing, claims investigation, reserve handling, settlements, subrogation, renewals, and endorsements across Policy Center, Billing Center, and Claim Center.
- Introduced Power BI dashboards for real-time sprint and Jira visibility, improving leadership reporting; reduced deployment-related incidents through proactive Jenkins pipeline monitoring and root-cause coordination.

GLOBUS — Medical Equipment Manufacturing & Distribution Platform

Role: Business Analyst & Jr. Project Co-ordinator

- Performed dual Business Analyst and Junior Project Coordinator responsibilities — concurrently drove requirement gathering & analysis, gap analysis, and business process improvement alongside full project coordination and stakeholder management.
- Coordinated a 15-member cross-functional team (Business, Product, Dev, QA, Infrastructure) across Inventory, Purchase Orders, Work Orders, RMA, and Device History Records (DHR) modules, including Smart Device warehouse operations.
- Led requirement elicitation, authored BRD/FRD/SOW and Impact Analysis documents, and drove UAT coordination to closure — delivering defect-free, on-time production releases and improving stakeholder requirement turnaround.

Infrastructure Operations / DevOps Support

- Coordinated CI/CD pipeline monitoring, environment health checks, storage & capacity management, deployment scheduling, and infrastructure maintenance across Dev, Test, Staging, and Production environments, enhancing system availability and release readiness.
